

2020-2021 **EDUCATION GUIDE**

Your essential guide to education in Jakarta and beyond

With **Global Jaya School's status as an IB World School**, we are able to offer senior students a pre-university Diploma Programme (DP) that can build confidence and develop the necessary skills to support their university and college studies.

Another notable advantage is that their chances of entering international universities are increased substantially because of the excellent reputation, recognition and status of the IB DP Worldwide.

COLLEGE ADMISSION COUNSELING

Applying to college is one of the most exciting and challenging times of your life. We help minimize the stress so you can focus on what's important: **finding** your **best-fit** school and **preparing** **outstanding** applications. Our college admission experts will guide you through each step of the admission process and help you get into your dream school.

PROGRAM OUTLINE

Our experts provide an excellent one-on-one counseling experience that prepares and empowers students to get into their best-fit schools. With your personal team, you will:

Find your best-fit schools

Build your application strategy

Stay on track and meet deadlines

Perfect your application and essays

Plan letters of recommendation

Reduce the cost of college

STUDENT ACCEPTANCES

It's no wonder we have a 96% happiness score! Here are some of the dream schools into which our students have been accepted for the 2020 school year:

- Harvard University
- Princeton University
- Massachusetts Institute of Technology
- Dartmouth College
- University of Pennsylvania
- Boston University
- University of North Carolina - Chapel Hill
- Berklee School of Music
- Clairmont McKenna
- University of California, Irvine
- University of California, Berkeley
- Cornell University
- University of Michigan
- University of California, Davis
- Loyola Marymount
- Georgia Institute of Technology
- Brown University
- University of Texas at Austin
- Syracuse University

THE COUNSELORS

Getting into competitive colleges is easier when you have the right team. We pair you with a College Counselor who worked for years as an admission officer at a top-tier university, reviewing applications and deciding which students to accept. Our counselors worked in the admissions offices of:

- Massachusetts Institute of Technology
- Stanford University
- University of Michigan
- Harvard University
- Duke University
- University of Pennsylvania
- Columbia University
- University of California, Berkeley
- Yale

SUCCESS STORIES

Words from our happy students!

"I got accepted into 3 schools... and with scholarships too! It was the hardest choice I had to make between those 2 Dream Schools! So I settled with the school I wanted since I was a child!!! Thank you Mr. K, I couldn't have done it without you! Berklee here I come!"
- Bima, Berklee School of Music, Boston, MA - Class of 2024

"I got into UC Davis, Boston University, NUS, and UC Irvine. It was hard to choose one from all those good schools! But I know Boston University is the one for me! Thank you so much!"
- Ken, Boston University, Boston, MA - Class of 2024

"I wish I had known you sooner, my college application journey would have been so much easier! Thank you for your words of encouragement, all those long hours of 'venting' sessions and your listening ears. Now I must make my decisions to choose what would be my best fit, between LMU, UC Davis, UC Irvine, UC Santa Barbara, and UC Berkeley!"
- Ariel, -undecided- Class of 2024

Dear Parents,

Striving for the best quality of life is what we all wish for our families, especially for our children. Moving to another country can become overwhelming with its various challenges that reach into all corners of your life. Indonesia is undoubtedly a vast and diverse country. Its educational environment has welcomed a myriad international schools that emphasise educating their students to be aware of the culture in Indonesia, as well as those of their fellow peers hailing from different parts of the world.

There's an exceptional level of quality in the international schools in Jakarta, Bali, Surabaya, Yogyakarta, and other major cities throughout the country, many of which have been home to generations of foreign and Indonesian leaders and innovators in the world. Coupled with academic achievements grounded in the Cambridge and International Baccalaureate curricula; creative-thinking, teacher guidances, sports, and arts, are also highly encouraged for your child, allowing them to further manifest their inner aspirations and skills.

Flip through these pages of the Education Guide for 2020/21. Inside, you'll find much-needed information based on things that might initially raise some concerns. We've also included articles for more insights on education in Indonesia. You can save yourself from relentless Google searches aiming to find the best school to suit your child!

Indonesia Expat puts together an annual Education Guide in the hope of helping and informing expatriate parents about the many options for schools that should meet the needs and wants of both parents and children. After all, a school is a child's home away from home.

Happy Parenting!

ACG School Jakarta provides opportunities for students to grow in a values-driven, supportive and diverse environment. We help students to become creative, innovative problem solvers who are entrepreneurial, confident users of technology.

Situated in South Jakarta and easily accessible from major roads, we place a strong emphasis on inquiry, investigation and opportunities for students to be leaders of their learning in creative, meaningful and authentic ways.

ACG School Jakarta promotes a variety of customised study options:

- The globally recognised IB Primary Years Programme (IBPYP) and Diploma Programme (IBDP)
- Cambridge International Lower Secondary and IGCSE courses
- English Language Support
- A Kindergarten programme for students from 2 to 5 years old

Offering a safe and stimulating environment, our dedication to developing the individual is also reflected in our co-curricular activities, including a wide range of performing and visual arts, sporting, cultural and leadership opportunities.

Entry Requirements

- Completed Application Form
- Results of any English language test taken and/or admissions assessment
- Copies of academic records (school reports for the last two years – where applicable)

Curriculum

Baccalaureate Programme from Preschool to Grade 12

Bali International School opened in September 1986 and was renamed Bali Island School (BIS) in December 2014 in accordance with the Ministerial Decree on Education. BIS is the preferred school for internationally-minded families and the only IB Continuum School in Bali. BIS is fully authorized by the International Baccalaureate to deliver the Primary Years, Middle Years and Diploma Programmes from Preschool to Grade 12.

BIS engages and empowers globally-minded, confident learners to reach their utmost potential in an active, creative, and respectful learning community. BIS values are derived from the IB Learner Profile. All members of the BIS community strive to be reflective, risk-takers, balanced, knowledgeable, inquirers, thinkers, communicators, principled, open-minded and caring. BIS embeds the concept of internationalism and provides opportunities for leadership within the curriculum and through our extensive after school activity program.

Entry Requirements

BIS admits students who will benefit from the education offered and who desire an international perspective. BIS is an inclusive school and serves students with mild to moderate learning needs. A child will be admitted if the school can offer a programme that will meet those needs.

IB Diploma and Admissions

BIS offers the IB Diploma courses in the final two years of school. Given the nature of the curriculum, BIS is only able to admit students who have the English language background to successfully access the courses of study.

Bali Island School
for a World-Class Education

A math competition today
wake boarding tomorrow

Jadon,

Professional wake boarder &
grade 10 student

The Best of Both Worlds!

Bali Island School, the longest established International Baccalaureate World School in Bali, serves students of age 3-19, and boasts competitive academic and college admission results. Offering the full scope of IB from primary years through diploma years, BIS engages and empowers globally-minded, self-confident learners to reach their utmost potential. BIS cultivates an active, creative and respectful learning community.

Within the unique Bali environment, children not only learn about, but also experience first-hand the island's rich culture and beautiful natural attractions.

This home for the Balinese population, has also become the adoptive home of many different people from all over the world, thus creating a truly diverse culture that complements student learning and global mindedness at Bali Island School.

Enquire today for 2020-2021 academic year admission. Scholarships available.

The British School Jakarta (BSJ) was founded in 1974 with support from the British Embassy to provide an education for internationally mobile students in the city. In 1994, it moved to Bintaro, a 44-acre site that has been constructed to provide a world class education in terms of bespoke teaching and learning in the classroom and facilities that include a 750-seater theatre, sports, musical and language centres.

We are an HMC overseas school, Apple Distinguished, member of FOBISIA, and accredited by CIS/WASC. We also work closely with Massachusetts Institute of Technology and their Compassionate Systems wellbeing program.

Our curriculum is driven by inquiry and knowledge. Our Primary curriculum has IPC and components of the English National Curriculum, moving into the IB MYP, I/GCSE & IB CP & DP. This journey enables our students to attain exceptional academic results and entry into the best universities in the world including UCLA, Berkeley and Cornell University in the USA, Oxford University and Imperial College London in the UK, and Nanyang Technology University and University of Melbourne in Asia Pacific.

Entry Requirements

Complete the online application form <https://bsjakarta.openapply.com> and submit supporting documents such as passports, stay permit for expat or Indonesia family registration for Indonesian national, report cards for the last 2 academic years, health card and pass the entrance assessment.

MORE THAN A SCHOOL

BSJ, through its wonderful community and collaborative partnerships, provides an education that is more than just a school. Our students have numerous opportunities to find and explore their passions and talents within school life that synergises with the academic progress for their future success.

Curriculum

The French School of Jakarta is proud to be a part of a large network of cooperation, which promotes the French language, a language of freedom and culture, while opening ourselves to the culture of our host country and to high potential international languages.

We offer our students an ambitious curriculum and quality teaching, from kindergarten to senior high school, and prepare your children for the European-English section Baccalaureate. The excellent results at Cambridge exams (12 percent in C2 level, 80 percent in C1 level) prove the exceptional quality of our foreign language curriculum.

To accommodate non-French-speaking families wishing to join our school, a language integration class welcomes children from 6 to 10 years old. Also LFJ offers an International American Section from 6 years old. The American International Section is taught exclusively by teachers with diplomas from North America. They bring authentic American accents and dialects, vocabulary and traditions into the classroom.

Global Jaya School (GJS), an International Baccalaureate (IB) World School, is located in a beautiful and popular suburb of Jakarta called Bintaro. Our status as an IB World School reflects a rigorous self-evaluation and training process of which we are very proud. We are pleased to be authorised to offer three IB programs: Primary Years Program (PYP), Middle Years Program (MYP), and the IB Diploma Program (DP). In addition, we are accredited by the Western Association of Schools and Colleges (WASC) and are a full member of the East Asia Regional Council of Schools (EARCOS).

Global Jaya School is a non-denominational community that encourages and teaches respect for others by valuing Indonesian culture while embracing international cultural awareness. Our school implements an international curriculum that fully supports mother tongue language development.

Our students are our strongest asset and are at the centre of our community. GJS students are talented, principled and active in their school lives. We are committed to delivering a well-rounded academic and extracurricular program that prepares students to participate in the international community as valuable team members and leaders.

Communication with parents is of great importance to the teachers at GJS. Parents are regularly informed about their child's progress through online reports and student portfolios, as well as e-communication via ManageBac, Facebook, Twitter, Instagram, and YouTube video streaming. Active parent participation is encouraged to support the learning experiences provided by our dedicated and professional teachers; we find much better outcomes result when parents are fully engaged in their child's academic pursuits.

Entry Requirements

Enrolment Documents for all Students:

- Completed enrolment forms (4 pages)
- Recent headshot photographs, size 3 x 4 cm
- Coloured copy of the candidate's birth certificate
- Coloured copy of the family registration card
- Legalised copy of school reports for the last 3 years
- Transfer Letter from the previous school

Children determine global education. Tomorrow's problems cannot be solved with yesterday's mind. HighScope Indonesia's mission is to redesign the world by empowering children to be life-long learners and self-regulated leaders.

Who We Are

HighScope Indonesia provides learners with opportunities to make decisions in an academic setting. We shape both mind and character with 21st century skills to face current and future challenges in the world, and ultimately, become independent decision-makers.

Brain-based Curriculum

We apply a brain-based curriculum. Our holistic curriculum covers all aspects of learners' needs: environment, atmosphere, assessment, strategies, activities, and support. We measure 21st century skills through our Learner Outcomes encompassing emotional, social, learn-to-learn, and analytical thinking skills.

Global Network

Originating in the USA, HighScope Indonesia is spreading its values and curriculum globally: UK – Portugal – Canada – China – Chile – Peru – South Africa – South Korea – Ireland – Mexico – The Netherlands including 11 units across Indonesia with over 3,500 students.

EARLY CHILDHOOD - ELEMENTARY - MIDDLE SCHOOL - HIGH SCHOOL

**There is no
one-size-fits-all
education.**

For 23 years our main goal has been to develop adaptive decision makers by providing our students with real life experiences, an agile mindset, and life skills to face any challenges that come their way.

Accredited by:

Founded in the USA, HighScope Indonesia believes that learning is a constructive process of acquiring a set of life tools that will be used for the rest of one's life.

Validated by our educational experts, the HighScope Indonesia curriculum is constructed on brain-based research. It is designed to prepare children for the future and balance the development of both mind and character.

This is how we are **redesigning the world**, one student at a time.

International Baccalaureate and Cambridge Curriculum – What's the Difference?

Any parent looking to send their child to a good school will have to make a tough decision; which curriculum to choose? The International Baccalaureate and Cambridge Curriculum are both available in schools around the world and are favoured by thousands of universities as entrance qualifications. But is there really a big difference between the two? Which one would give your child the best chance to get into an acclaimed university? All in all, it really depends on your child's strengths and aspirations.

The International Baccalaureate Curriculum

The International Baccalaureate (IB) was founded in 1968 as a non-profit educational foundation in Geneva, Switzerland. Today, there are 6,311 IB programs being offered worldwide across 4,786 schools. The IB offers three programs, the Primary Years Program for children of ages three to 12, the Middle Years Program for ages 11 to 16, and the Diploma Program or the IB Career-related certificate for ages 16 to 19.

The IB curriculum is flexible and teaches students using a global approach. Students are required to be holistic through participating in different extracurricular activities that involve physical, creative, and humanitarian work, and do projects and assignments on a topic of their own choice. There is an emphasis on independence for IB students, and teachers constantly challenge students to learn a wide variety of subjects.

For the Primary Years Program, IB focuses on six themes: who we are, where we are in place and time, how we express ourselves, how the world works, how we organise ourselves, and sharing the planet. Students are moulded to become inquirers and take responsibility for their own learning. These values continue into the Middle Years Program, where students learn the usual middle school subjects, plus technology and a foreign language. At the end of the program students do a personal project based on their interests.

As for the two-year Diploma Program, high schoolers complete courses from six subject groups, three at higher level and three at standard, which must include mathematics, a science, English and at least one foreign language. Students must also complete a 4,000-word extended essay on any topic, a Creativity Action Service which requires engagement in the arts, physical education and community service, and studying Theory of Knowledge, which tests students on different types of knowledge through an oral presentation and a 1,600-word essay. IB also offers high schoolers the Career-related Program for those who wish to focus on career-related learning. It combines the Diploma Program with practical and real-world approaches to learning.

The Cambridge Curriculum

Cambridge International Examinations (CIE) is an arm of Cambridge University in the United Kingdom. The Cambridge Curriculum offers programs at all levels and is offered in 10,000 schools around the world. It is divided into four stages: Cambridge Primary for children of ages five to 11, Cambridge Lower Secondary for ages 11 to 14, Cambridge Upper Secondary for ages 14 to 16 which will require the International General Certificate of Secondary Education (IGCSE) qualification, and Cambridge Advanced for ages 16 to 19 which will require the Advanced Subsidiary (AS) and Advanced (A) Level qualifications.

The Cambridge Primary and Lower Secondary teaches students English, English as a second language, mathematics and science as a core curriculum, which provides a clear teaching structure. As the students reach the Cambridge Upper Secondary level, they are required to take the IGCSE exams at the end of tenth grade. Students have to take exams of a first language, a second language, mathematics, and one or more sciences. They have 70 subjects to choose from.

After passing the IGCSE exams students can then go on to the Cambridge Advanced, where they study a one-year course in a chosen subject for the AS level, and a two-year course for the A level. Students have a choice of 55 subjects and can choose to specialise in a particular subject area or study a wide range of subjects.

Which Curriculum Should You Choose?

There isn't a better choice when it comes to either curriculum. They are both recognised by universities worldwide, and both educate students in a very effective manner. The only differences are the focus on subjects and the projects required to graduate. What you have to figure out when choosing a curriculum is if your child excels in particular subjects, or if they do better with a more general education.

"So that, whoever comes will have a transformed life"

Located in Sunrise Garden in West Jakarta and Pondok Indah in South Jakarta, Ichthus School is known for its strong academics and values-based education, with an emphasis on the Christian faith and character building. The school embraces creativity and multiple intelligences, collaborative and cooperative learning, entrepreneurial skills, sports and fitness, performing and visual arts, as well as community services.

Primary

Ichthus School is committed to providing a transformative learning environment that focuses on educational excellence and character development. The Comprehensive Ichthus Curriculum motivates Ichthusians to be achievers in their academic subjects as well as in their creative endeavours that reflect God's love and Biblical values.

Secondary

Ichthus Secondary School (Grades 7 to 10) integrates the Cambridge and IGCSE curriculums with preparations for the Indonesian National Exam at the end of Grade 9. The Cambridge curriculum culminates with two assessments which we use to benchmark our students against an international standard. These are the Checkpoint in Grade 8 and the IGCSE final exam in Grade 10.

A-Level

Ichthus Secondary School offers the Cambridge International A-Level curriculum and international examination for our Grade 11 and 12 students. The A-Level syllabus develops study skills and the ability to think critically, preparing students for the challenge of studying in the best universities in the world. Besides taking our mandatory subjects, Ichthus students choose a minimum of three elective subjects according to their future academic and career plans.

Entry Requirements

JIS welcomes learners who can benefit from and contribute to a high-quality elementary to secondary university preparatory curriculum. There is an easy five-step application process which includes an assessment of the applicant's skills in English language, reading, writing, and mathematics.

Curriculum

JIS has three sprawling campuses – Pattimura Elementary (PEL), Pondok Indah Elementary (PIE), and Cilandak Middle and High School – spanning a total of 20 hectares of lush tropical gardens. JIS is the academic home of more than 2,300 students representing over 70 nationalities. With a student-teacher ratio of 1:10 we are able to get to know each of our students and understand how to best engage them as learners. This personalised approach ensures that every JIS student is supported, appropriately challenged, and has an optimal environment for personal success. With the widest range of academic and co-curricular options in Indonesia, we are certain that every child can discover and pursue their passions at JIS. JIS parents contribute actively to school life through the many opportunities offered by our parent volunteer organisations. We often find that many of our parents, like our students, form lifelong friendships while a part of the JIS community.

Learning to be Global Citizens

From Preschool to Grade 5, children at JIS are part of a diverse student community that learns in exciting ways. They are encouraged to take part in their own development and celebrate their heritage while learning to be global citizens in an ever changing world.

Learning in Indonesia to be best *for* the world

Entry Requirements

Children need to be of ages 1.3 years to 11 years to be eligible.

Curriculum

Located conveniently in Kemang, Jayakarta Montessori School is devoted to the education of children 1.5 to 11 years of age, and has developmentally appropriate programs that foster creativity, self-confidence and a natural love for learning. Guided by skilled Montessori-trained teachers in English-speaking classrooms, we promote children's physical, social, emotional and mental development, thus providing an excellent foundation for life in larger schools.

The preschool focuses on practical life skills, motor skills, math and reading readiness, and social awareness. There is a focus on independence: a child's ability to dress and feed themselves, put things in their proper place, and share with their friends and peers, all while fostering a good attitude towards learning and adapting to the school routine.

The elementary curriculum is international in scope and includes science, social studies, arts, language and math. Children leave the primary school with a broad ability and knowledge that prepares them for the educational challenges ahead.

We are open for enrolments and inquiries all year; please drop by anytime! You may visit during preschool hours in order to observe a classroom and some activities, 8am–12pm, Monday–Friday. Free trial classes are also available by appointment. We also have a summer school through the month of June, and after-school activities for children three years and older.

Entry Requirements

New Zealand School Jakarta welcomes all international and Indonesian students. Admissions open all year round. A completed enrolment application checklist is required. Parents and students interview with the Head of School.

Curriculum

Kia ora!

New Zealand School Jakarta (NZSJ) has a long and proud history of serving the Jakarta community and delivering exemplary outcomes for all our tamariki (children).

Founded in 2002, NZSJ aims to bring the well-rounded and progressive New Zealand Curriculum to young learners of all nationalities living in Jakarta, Indonesia.

We offer a friendly and lively community with a team of passionate and devoted kaiako (teachers) and support staff. Our goal is to develop innovative and challenging individual learning programs that will provide a solid foundation for future academic success, as well as social and emotional growth.

We guide our students to understand themselves as learners; set goals, take risks, be reflective. We seek to instil positive values and foster an environment of aroha (compassion), open-mindedness and respect towards others. Our integrated curriculum and inquiry-based approach enable our students to become confident, connected and active lifelong learners.

What does your family value in a school?

How do you know you are making the right choice for your children?

In a year of uncertainty and change, choosing the right school is essential. Come and speak with us to help you take the right decision for your children and family.

We seek to instil positive values and foster an environment of aroha (compassion), open-mindedness and respect towards others. Our integrated curriculum and inquiry-based approach enable our students to become confident, connected and active lifelong learners.

Jayakarta Montessori School

Located in a quiet, green residential precinct in Kemang, South Jakarta, the Jayakarta Montessori School has been serving the international and local community for nearly forty years. It is devoted to the education of toddlers (15 months old) all the way up to elementary school. Based on the non-discriminatory philosophy of Dr. Maria Montessori, the school and environment are carefully prepared to nurture the mental, emotional and physical well-being of each child. The school is committed to the belief that children learn best in an environment that values the uniqueness of the individual child, and is thus designed around them – making them feel at home, with easy access to learning materials, organised classrooms, and decorations of their own work. In the main atrium, there is a large skylight which floods the school with natural light, and an ambience which brings children closer to nature.

This area also serves as a place where the children can interact with children of other age levels for the first period of the day, before they will adjourn to their own respective classrooms where they are grouped by age level. Maria Montessori believed this to be a beneficial arrangement for all children,

as the older children have an opportunity to help the younger ones, who in turn get a chance to see what they will work on in coming months or years.

Teachers at a Montessori school fulfil the role of “directors” or “guides” rather than traditional instructors. A good Montessori classroom is also enhanced by quality, specifically designed materials, presented in the proper way. The child-centred, adult-guided approach encourages an atmosphere of enjoyable, purposeful work in the classroom, where children are frequently given a choice of which material they wish to work with. However, there is still structure throughout the day, in terms of time periods, and key elements of stimulation such as story-telling, outdoor play and games, music, art, and Show and Tell.

Jayakarta Montessori is a very open school, happy to showcase our learning environment. Free trials are available as well as visits on any school day. Students can enrol and commence at any time of the year, so for anyone looking for a close-knit, friendly, and warm school environment, please come down and say hi!

The BEST University is...

Parents always come up to me and say, "My child needs to attend Princeton or Stanford, Georgetown, Harvard, Yale, MIT...." When I ask them why they say "umm uh..., because they are the best." So, when I try to tell them that they are NOT the best I get a look as if I am Godzilla ready to destroy their child's world. **"So, which one is the best?"** they ask.

Choosing a college or university is like trying on a good coat. It must keep you warm and protect you from inclement weather but most importantly it must fit just right or else the cold will seep in and make you miserable.

There are **many good colleges in the United States** where you can get a great education, but **if the fit is wrong**, it is nearly impossible to get a great education – no matter how high the college ranks.

Don't rely only on ranking, **rely on which school has your preferred program**, location, size, clubs, internships, job placement, cost and most importantly **"best fit."**

At eSTEP Princeton Review we make it our mission to help students get into their **best fit college**, by **strengthening their grades, test scores, and college applications**. We are solely on the side of the students. *We are not affiliated with any universities or colleges.*

The ACT[®] test is an admissions exam used by universities to evaluate undergraduate applicants. All four-year universities in the United States and nearly 300 universities outside of the United States accept and value the ACT.

The ACT contains multiple-choice tests in four areas: English, mathematics, reading, and science. ACT's writing test is optional and will not affect your Composite score.

Beginning with the September 2020 international test date, you will have access to ACT Superscoring: the process of averaging your four best individual subject scores from all ACT test attempts to find a new score.

MAKING A DIFFERENCE AROUND THE WORLD

The ACT Global Assessment Certificate (GAC) is an internationally recognized university preparation program that provides students with the academic knowledge, skills, and confidence to thrive in a bachelor's degree program. The GAC is the only international program of its type, which includes preparation for the ACT® university admissions test as part of its curriculum.

Here are eight reasons students should consider pursuing the GAC.

Admission

The ACT GAC, through its network of Pathway Universities, offers a path to admission at some of the world's top schools.

Differentiation

The ACT GAC offers students a way to differentiate themselves among other university-bound students at home and abroad.

Competencies

The ACT GAC program helps students develop real-world competencies that are critical for success in both higher education and the workforce.

Global Perspective

The ACT GAC gives students a new way to work and interact with the world that is critically important in our global economy.

English Language Proficiency

The ACT GAC curriculum is taught 100 percent in English, offering students a real-life laboratory for perfecting their English language skills.

The ACT Test

The ACT GAC students are always able to sit for the ACT close to home if not at their own schools.

Transfer Credit

The ACT GAC graduates qualify for significant transfer credit at many US universities.

Scholarships

The ACT GAC graduates may qualify for scholarships at some universities.

Curriculum

Nord Anglia School (NAS) Jakarta is part of Nord Anglia Education, the world's leading premium international schools organisation with over 60 schools globally. Our school in Jakarta delivers a dynamic British international education to Early Years and Primary students. Our school's welcoming atmosphere and leafy green campus provide a haven for our truly international community in the heart of Jakarta.

NAS Jakarta adopts a blended curriculum based on the English National Curriculum and the International Primary Curriculum, which focuses on high expectations, key skills and knowledge, as well as encouraging excellent attitudes to learning and metacognition. We recruit only the best international teachers who are highly experienced and qualified, and our excellent standards in learning and teaching create a curriculum that is relevant, rich and rewarding.

Our amazing students embody the ambitious aspirations of NAS as curious, creative and enthusiastic young people with an appetite for learning and thirst for knowledge. And with families from over 30 nationalities, we are proud of the rich diversity of our school community and take every opportunity to celebrate cultural diversity. NAS Jakarta is a special place to learn and is focused on one main aim: to provide the best possible learning experience for all.

World-class Learning in Jakarta

We believe there is no limit to what our students can achieve and our approach nurtures every child to succeed academically, socially and personally.

Vijjasena Sugiono

**Sinarmas World Academy Student
Class of 2020**

Accepted to 4 Ivy League Universities:

Yale University, Princeton University,
Columbia University and Dartmouth College
with USD 864,000 in Scholarships and Aid

The Journey to Dream University

The biggest surprise of my own personal admissions journey was how much I learnt about myself. Many students and parents approach the admissions journey as a time to pile up and show off all excellent GPAs, ACT/SAT scores, accomplishments, and extracurriculars. And although this step is important, an admissions process can be a much deeper and more meaningful event. If university admissions was likened to eating your favourite dessert, and getting into your “dream university” was the proverbial “cherry on top,” then finding yourself and your purpose would make up the body of the dessert. Most see the admissions process as a crucial period that will influence their future forever. While I am inclined to agree, in reflecting on my own process, I find that the value of the experience really came from finding myself through inward reflection. Going through the process really made me realise that, until that point, I had spent most of my time focusing on day-to-day activities, like homework, socialising, and household chores. I realised that I actually spent very little time thinking about my purpose and who I am as a person. The admissions process forced me to step back and consider deeply what actually matters to me in life. This is important because it is often so hard to find time for this form of reflection. How many times have we heard it referred to negatively as “daydreaming” – a dangerous mislabel that steers many young people away from engaging in meaningful reflection on their own lives.

It is impossible to sugarcoat the fact that the admissions process is very stressful. Being in a state of limbo where one does not know where one will be going can be very frustrating. But students will only complete their undergraduate admissions once in

their lifetime. Students will not repeat this process at any other point in their life. As the saying goes, “an experience is only as good as one makes it to be.” My advice to students is to start appreciating the things that we often take for granted: having supportive friends who are with us all the way and who reassure us at times of doubt, dedicated teachers and school staff (a shout out to the Sinarmas World Academy Community!) who will help us in our admissions journey, and of course parents, who are always there for us. Most importantly, students should use the experience to understand themselves better. If we are willing to get to know the people we spend our teenage years with, it stands to reason that getting to know ourselves is just as important; after all, who will we be spending the entirety of our life with?

The last detail that I feel the need to share with all of you is this: At the end of the day, trust yourself. You are more than what statistics or scores may seem to say. If you have a dream school, but are hesitant to apply because you think your scores are not good enough, your profile not strong enough, or your extracurriculars not impressive enough, apply anyway. Getting a rejection is bad, although from my personal experience, living with regret and doubt promised to be far more painful. Getting rejected by your dream university may be painful, but imagining what could have happened if you had only tried and applied is a far more painful and persistent memory. I applied to thirty different universities. From the thirty universities that I applied to, only two were what you might call “safety schools.” While I must admit that I was committed to “dreaming big,” there is nothing wrong with that. At the end of the day, what matters is that I have no regrets, because I can say to myself that I tried. The important question is, will you?

Enrich minds, Empower Champions.

The Raffles Christian School was founded in 2005 with the flagship campus in Pondok Indah, South Jakarta. In 2010, an additional two campuses were added, in Kelapa Gading, North Jakarta and Kebon Jeruk, West Jakarta. This was followed by a fourth campus at Pondok Indah in November 2015.

The school is certified center for Cambridge Assessment International Education (CAIE). We offer our students the Cambridge curriculum to prepare them for the IGCSE and International AS and A Level examination.

Our strength lies in our rigorous academic program and a wide variety of Co-Curricular Activities (CCA) which aims to prepare well-balanced students for the challenges of Industry 4.0. We have a strong tradition of students excelling in the examinations set by CAIE. Many of our students have been awarded the Top Student in Indonesia and in the World consistently since 2007. At Raffles, we believe that classrooms and learning environments are impactful, which is why our classrooms only have a maximum number of 25 students. Each class has an expatriate teacher and is supported by an Indonesian teacher/ Teaching Assistant. Furthermore, Mandarin has become vital in today's economy which is why our strength is also in our Mandarin program, where children are taught at an early age to embrace the language and be fluent by the time they graduate A levels/Junior College. Our Mandarin teachers are all native speakers to ensure fluency of our students.

The Raffles Christian School offers its graduates the opportunity to continue their higher education worldwide, with many of our alumni currently pursuing their dreams in the USA, Europe, and especially in Asia, where we have a strong network and partnership with many prominent Asian universities in China, Japan, South Korea, Singapore, and Malaysia.

Curriculum

Cambridge Primary Checkpoint, Cambridge Secondary Checkpoint, Cambridge IGCSE, Cambridge International AS, and A-Level.

Facilities

Indoor Auditorium, Outdoor Futsal field, Tennis court, Basketball Courts, Chapel, Clinic, Outdoor Playgrounds, Computer and Science Labs.

Raffles Christian School

To Learn, To Lead, To Love

Build A Strong Foundation For Your Child

At Raffles, our students are groomed to be a world class, futuristic leader while holding Christian values. Our Rafflesians are active, lifelong learners with sterling character. Our strength lies in our rigorous academic program and a wide variety of Co-Curricular Activities (CCA) which aims to prepare well-balanced students for the challenges of Industry 4.0. Our strength is also in our Mandarin program, where children are taught at an early age to embrace the language and be fluent by the time they graduate A levels / Junior College.

PIAGET LIFE ACADEMY is an innovative K-12 school, a technology-rich learning community providing customized, age-appropriate and safe learning environments for each child using expert mentors to maximize their learning while provoking curiosity, passion and enhancing problem-solving skills. Our new education model will prepare our children beyond university education, equipping them with the values, knowledge and skills to thrive in a complex and disruptive future and succeed in life.

With Character and Values at the center of our education, complemented by academic programs based on the Singapore and Cambridge curricula, our children will learn the latest technologies as we sharpen their critical thinking, innovation, creativity skills while nurturing their life skills.

Through this education framework, we aim to guide them with tailor-made education so they can realize their aspirations while simultaneously nurturing them towards Resilience, Integrity, & Mindfulness.

For over 25 years, Sekolah Pelita Harapan (SPH) has offered high quality and holistic Christian education for Indonesia. With a total enrolment of over 2,100 students across five campuses around Jakarta, SPH exists to prepare students to become tomorrow's leaders and world citizens.

SPH schools are accredited through the Western Association of Schools and Colleges (WASC) and the Association of Christian Schools International (ACSI) and are members of the Council of International Schools (CIS).

Our schools emphasize Indonesian identity and culture as well as the importance of living as global citizens. The comprehensive International Baccalaureate and Cambridge academic programs, along with diverse opportunities in art, sports, music, science, biblical foundations and community service programs are designed to produce high quality graduates. 100% of our graduates pursue higher education in well-respected universities around the world.

SPH teachers are recruited both locally and internationally. All teachers are highly qualified and engage in continuous professional development. SPH has excellent facilities and resources to support creative teaching and engaging 21st Century learning. Above all, our SPH community remains true to our vision of True Knowledge, Faith in Christ and Godly Character in everything we do.

Visit our campuses to experience firsthand the premiere education to build a solid foundation for your child.

Curriculum

National and Cambridge (Checkpoint, IGCSE, AS/A Level)

We are proudly an Indonesian school with international standards. This is reflected in our student character development, academic excellence and approach to lifelong learning.

SPM is the 1st Leader in Me School in Indonesia based on the 7 Habits of Highly Effective People. Every student is the centre of their learning and development. Students set “Wildly Important Goals” for their achievement and then must plan, monitor and evaluate their development and progress.

SPM follows the National Indonesian curriculum and the Cambridge curriculum (Check Points, IGCSEs, AS-Levels and A-Levels) opening our graduate students to great opportunities around the world and at the best universities in Indonesia. Approximately 70 percent of our graduating students go on to study abroad. We are a bilingual school using both English and Indonesian; moreover, the international culture of our school means that English is predominantly used daily.

- Government Accredited "A"
- 1st Leader in Me School
in Indonesia
- 7 Habits Pioneering School
- Developing Critical Thinking
- Building Skills, Knowledge
& Understanding
- National & Cambridge Curricula
- 100% Graduation Record
- Internationally Accepted IGCSE
- Internationally Accepted AS
& A Levels
- University Pathway
- University Preparation
- International Opportunities
- Scholarships

OUR CURRICULUM

SPM applies the National and Cambridge Curriculum (IGCSE, AS + A Levels) using effective teaching and learning strategies that blend the curriculums. 70% of our graduates continue their studies abroad, while 30% continue their studies at top national Indonesian universities.

THE LEADER IN ME

SPM is a 7 Habits Pioneer and an International Lighthouse School. We apply the Leader in Me model based on The Steven Covey 7 Habits of Highly Effective People to unleash your child's potential.

Since 2008, SINARMAS WORLD ACADEMY (SWA) has provided international education, with the goal of achieving academic excellence. SWA has a vision to shape the future as a dynamic learning community that embraces Asia and engages globally; and a mission to build strong, sound characters that strive for excellence with a winning mindset.

Through age-appropriate holistic learning in the SWA Early Years program, children are being nurtured physically, emotionally, socially and intellectually, setting a solid foundation to be confident, smart, creative, independent, and compassionate individuals.

Elementary School students are offered strong basic academics with a huge variety of intra-school programs; including sports, science, engineering, ICT/robotics and dance, which are commonly offered only as after-school programs. Diversity in activities is present in order that students discover their true potential and passion for learning.

As early as in Middle School, students are being counselled, personally, to start mapping out their future with the SWA University Guidance Counsellor. Through the IB Middle Years Program framework with the IGCSE syllabus, students are empowered to be purposeful, confident learners.

SWA offers a comprehensive IB Diploma program for Grades 11 and 12; with a record of a perfect IB-DP score of 45/45 and other scores above world average. We are proud to have numerous graduates receiving scholarships from world-wide top universities, including Ivy Leagues schools, and even prouder to have all graduates embarking upon their journey as agents of change, as global citizens, and as future leaders.

A very warm welcome to Singapore Intercultural School, a school with great vision, purpose and commitment to the future of the students in our care. We have sense of pride in our students, staff and school as a community. Singapore Intercultural School (SIS) first opened its doors in 1996 from Preschool to Junior College level represented by over 25 student nationalities.

We live in times of unprecedented opportunity. It's never been easier to make the world your playground. However, only prepared minds will seize opportunities and thrive. So are you giving your children their best possible shot at success? With SIS, you can be sure you are. For us, education is more than teaching; it's about inspiring kids to learn. We believe curiosity is the engine of achievement. Which is why we don't only teach – we mentor, stimulate, provoke and engage our students.

All kids are natural learners; they just need to be engaged in a manner that's right for them. Therefore, through years of experience, we have designed an ecosystem that brings out the best in each student. Inspired by Indonesia's potential and Singapore's ever-evolving methodology, our network of schools offer the Singapore, Cambridge and IB curriculum in a family-like environment that prioritises personalised learning. With an unparalleled proficiency in English, Math, Science enriched by the humanities, regional languages and the Arts, we equip our students with the fundamentals to thrive on their own terms – now, and for the future.

In SIS, learning is all about inspiring the student. We just don't teach here. Instead we mentor, stimulate, provoke and engage, in a holistic nurturing environment. All kids are natural learners; they just need to be engaged in a manner that's right for them to discover their talents and interests.

We offer a family like environment with emphasis on academic proficiency but also enriched by languages and the Arts in an ecosystem that brings out the best in each student. At SIS, not only do we show children the path, we walk alongside them.

Inspired Learning for Inspired Futures.

Curriculum

We apply our proprietary curriculum and also certified early childhood education curriculum from USA.

Learn from the Start: starting from 1 years old until 3 years old, we apply this curriculum which focuses on important early childhood milestones.

LifeSmart Curriculum: We recognize that every child learns differently and every child is smart. That why our curriculum is inspired by Howard Gardner's multiple intelligences theory. It provides opportunities for children to develop their minds and abilities through different approaches, materials, and experiences.

Second Step: Social- emotional skills are just as important as learning reading or math and it essentials for success in school, work, and life. second step is a social emotional curriculum form USA, design specifically for early childhood education.

Grow Fit: A healthy body nurtures a healthy mind. ours grow fit program emphasizes healthy snack in the classroom and daily physical excessive.

STEM: Science, Technology, engineering, and mathematics and be taught from a very early age and helps children excel in logical thinking.

Universitas Triatma Mulya Stenden in Bali (UTMS) is an international campus site and has a cooperation with NHL Stenden University of Applied Sciences in the Netherlands.

UTMS offers pathways to accredited Indonesian and Dutch Bachelor's Degrees for 2 programmes: International Hospitality Management and Business Administration. Programmes are conducted 100% in English. Upon graduation, all students will earn the Indonesian Sarjana Manajemen diploma and the Dutch Bachelor of Arts for International Hospitality Management or the Bachelor of Science for Business Administration.

Our students come from different cities in Indonesia and other countries, such as Vietnam, India, Germany, France, Italy, Morocco, Spain, Denmark, USA, Finland, the Netherlands, etc. In such a multicultural environment, it is easy for our students to enhance their international skills.

School Terms

The YIS academic year is subdivided into four terms, starting in the third week of August 2020, and ending in the third week of June 2021.

School Fee Range

As a not-for-profit educational institute, the YIS offers high-quality education at affordable basic school fees that cover the basic cost related to education.

Email

info@yis-edu.org

Website

www.yis-edu.org

Entry Requirements

Register now, and enroll later. YIS welcomes all international and Indonesian students. Joining the YIS involves a three-step procedure: Registration of new students may be done online through our website (www.yis-edu.org), or at the YIS front office. Admission depends on the capacity of the school, on student record of previous schools, and on admission tests by the YIS. Annual enrollment renewal is required before the start of each Academic Year. Students may be enrolled throughout the ongoing school year, but placement is at the discretion of the school.

Curriculum

YIS is the 'One-and-only' authorized International Baccalaureate World School (IB) in Yogyakarta. The YIS Curriculum is based on the Early Years and Primary Years Program (IB-PYP), on the Middle Years Program (IB-MYP) and on the Diploma Program (IB-DP). For Indonesian students, the YIS Curriculum is integrated with the national education standards. YIS academic transcripts and diplomas are acknowledged by other IB schools in Indonesia and overseas, and by top-class universities worldwide.

The YIS Syllabus covers a broad range of subjects, including foreign languages, mathematics, sciences, environmental studies, history, geography, music, arts and physical education. Extra-curricular activities foster athletic, creative and technical skills. Education is delivered in English by a team of international and national IB-trained teachers.

The YIS is located in the historic city of Yogyakarta that is renowned as center of culture and education. The school was founded in 1989 and is the only school in Yogyakarta that is licensed by the Ministry of Education and Culture to offer an international curriculum. The YIS is a private school that operates under the legal umbrella of the Yogyakarta International Education Foundation (YPIY). The YIS Campus of 6.5 hectares offers excellent outdoor sports facilities and serene botanical gardens, free of air pollution and far away from traffic noise.

YIS from Start to Finish

FIVE GOOD REASONS TO ENROLL IN YIS:

- **INTERNATIONAL BACCALAUREATE WORLD SCHOOL**
Complete curriculum from IB-PYP, IB-MYP to IB-DP
- **AMAZING 6.5 HA CAMPUS**
Sports ground, rain forest and botanical gardens
- **AFFORDABLE SCHOOL FEES**

The top half of the advertisement features a photograph of a modern office interior. A white desk with a perforated metal base is positioned in front of a large window that offers a panoramic view of a city skyline. On the desk, there is a small potted plant with orange flowers, a laptop, and some papers. A black office chair is tucked under the desk. The Marquee logo, consisting of the word "MARQUEE" in a bold, blue, sans-serif font followed by a registered trademark symbol (®), is located in the top left corner of the image.

WE ARE REDESIGNING THE WORLD ONE STUDENT AT A TIME

For 23 years our main goal has been to develop adaptive decision makers by providing our students with real life experiences, an agile mindset, and life skills to face any challenges that come their way.

Accredited by:

What Parents Are Saying

"We clearly see tremendous growth and developmental changes in our child ever since he joined this school. He is more confident in sharing stories, expressing his feelings and emotions in a much better way. He enjoys creating science experiments at home. We are very satisfied with HighScope and highly recommend this school to all new parents."

Prachi Garg

Parent of 1 HighScope Student
(Early Childhood)
Sekolah HighScope Indonesia
Kuningan

"As a parent, I think that a school's learning process should be engaging; a school should be exciting for the students, and most importantly the children should feel happy. HighScope Indonesia is a perfect school that ensures your children have the right learning environment. I saw how my children completely developed their talents and potentials stress-free."

Aquarina Perdananti

Parent of 4 HighScope Students
(Elementary)
Sekolah HighScope Indonesia
Alfa Indah

"Both of my children really enjoyed Business Day, and I think it's the reason why they are ahead today. My youngest came to me with a business proposal for a community hub. I don't think it would be possible if they were not given the freedom to think, the freedom to learn, and to explore their interests."

Devy Wildasari Adjiningsih

Parent of 2 HighScope Students
(Middle School)
Sekolah HighScope Indonesia
Kelapa gading

HighScope Indonesia has a system that can identify each child's characteristics & interests, so their potential can truly be well-developed. The greatest thing is they provide space for the students to innovate.

Prof. Dr. Ahmad M. Ramli

Parent of 1 HighScope Student
(High School)
Sekolah HighScope Indonesia
TB. Simatupang
